RS Components Ltd. Birchington Road, Corby, Northants, NN17 9RS, UK

The RS Live experience!

Bringing innovation to your location

Welcome on board!

Step into a **journey of innovation**

RS Live! is a ground breaking mobile innovation experience created exclusively for RS customers and students across the UK & Ireland. We will take you on an exciting and educational journey through six interactive environments - Design, Build, Maintain, Store, RS Pro and Purchase.

For a truly innovative mobile experience, you can interact with the latest solutions including DesignSpark, Internet of Things (IoT), 3D Printing, Robotics, RS Pro, Health & Safety, Tooling, New Products and Innovation, and Raspberry Pi.

Innovation in Motion **Zones**

Design

Step into a fully interactive demonstration area showcasing tools, software and products to take control of the design and prototyping of new products. This zone includes a LIVE IoT connected design and 3D printing demonstrations!

Maintain

Want advice on how to maintain and improve manufacturing lines or production environments? Let our interactive robot production environment help you to take control and grab yourself an armful of goodies!

Build

Explore the breadth of our Automation, Electrical and Build product offer and discover innovative solutions from leading brands via our interactive control panel. Get hands-on with our Test, Measurement and Electrical product range from leading suppliers like Fluke, Facom and Megger.

Store

People are the greatest asset of any business, making Personal Protection paramount. Our digital mannequin makes product selection a doddle, and our storage bin solutions take the hassle out of sorting your stores out.

INNOVATION IN MOTION

RS IT'S ON RS

RS Pro

Save a packet by selecting from our RS Pro range of more than 40,000 high-quality, competitively priced industrial products and electronic components, where the combination of quality, performance and price creates exceptional value. Experience the quality of RS Pro products first hand via our interactive displays.

Purchase

Cut your costs through our intelligent suite of purchasing solutions from Purchasing Manager to e-Invoicing, and find out how our Technical support can add value to your product selection.
