

GIVE YOURSELF THE EDGE

ENGINEERING A BETTER WORLD

What?

Produce an **essay** on '**Engineering a Better World**'
(maximum 1000 words)
How do engineers change the world for the better?
What can we do to engineer a better world?
Think global health, the environment, renewable energy...

Why?

Applying for College or University? An apprenticeship?
Build up your CV and stand out from the crowd by demonstrating you've thought in depth about Engineering and how it impacts everybody.

How?

Please send your submission with your name and age to ymb@wes.org.uk

When?

Submission deadline: **Wednesday 1st November 2017**
Winners announced: Friday 10th November 2017

Some More Information

The main purpose of this competition is to provide high school students with something that can help *Give Them the Edge* when completing their university, college, apprenticeship or job applications. Further to this it will hopefully get them thinking about Engineering and if they want to pursue it as a career.

The judging has been split into two age brackets:

- 11-14 Years Old
- 15-18 Years Old

The judging shall be completed by members of the Women's Engineering Society but the **competition is open to all genders.**

Every applicant shall be given recognition for their entry which they can use as evidence of their participation. There shall also be a number of Highly Commended certificates issued.

Please share this competition with anyone you think it shall be relevant to and follow us on
